

A strong European policy to support Small and Medium-sized enterprises (SMEs) and entrepreneurs 2015-2020

Public consultation on the Small Business Act (SBA)

Fields marked with * are mandatory.

Introduction & background

Since its adoption in 2008, the Small Business Act (SBA) has proven its worth as a policy tool in support of the small and medium enterprises (SMEs). Various initiatives have been taken at both EU and national level to improve the environment in which these businesses operate and help them grow.

It is now time to reflect on what can be done in the years that lie ahead to make life easier for SMEs.

The Commission has drafted a consultation document including the on-going measures and the new proposals (see the link below).

This consultation is designed to collect feedback on the new initiatives set out in the consultation document.

Please read it before you complete the questionnaire.

Devolved nations within the UK, like Northern Ireland, are unique in that they face regulation from Europe, Westminster, devolved Assembly and local Councils. Therefore regulatory simplicity at a European level is even more important for places like Northern Ireland.

Reliance on traditional forms of finance is very high in Northern Ireland with InterTradeIreland stating in their recent 'Access to Finance for Growth for SMEs on the Island of Ireland' that bank finance makes up 95% of all finance provided to Northern Irish SMEs. Alternative forms of finance, such as crowd-funding, are therefore vastly underused in Northern Ireland and need to be promoted.

There is a need to ensure that Devolved Nations like Northern Ireland are fully represented in Member States Trade Missions. Furthermore, development of local cooperation and cluster organisations for SMEs should be open to all parts of the UK.

There was a relatively low level of participation of Northern Ireland SMEs in FP7. According to a recent European Commission report entitled 'Northern Ireland in Europe' SMEs there are actually in last place in an international comparison and 11th place in the UK national comparison, only ahead of the South West. This is a barrier to innovation and must be addressed.

6.2 Any further suggestions or comments?

We agree fully that a dual system in vocational training and a better image of some jobs is necessary. The new Apprenticeships Strategy and current review of Youth Training in Northern Ireland attempt to bring about improvement within these areas.
