

# A strong European policy to support Small and Medium-sized enterprises (SMEs) and entrepreneurs 2015-2020

## Public consultation on the Small Business Act (SBA)

Fields marked with \* are mandatory.

### Introduction & background

---

Since its adoption in 2008, the Small Business Act (SBA) has proven its worth as a policy tool in support of the small and medium enterprises (SMEs). Various initiatives have been taken at both EU and national level to improve the environment in which these businesses operate and help them grow.

It is now time to reflect on what can be done in the years that lie ahead to make life easier for SMEs.

The Commission has drafted a consultation document including the on-going measures and the new proposals (see the link below).

This consultation is designed to collect feedback on the new initiatives set out in the consultation document.

**Please read it before you complete the questionnaire.**

The consultation does not make any reference to Angel financing, which is a key source of funding for early stage companies. In this particular field, and in the next 5 years, efforts should be taken to:

- 1) facilitate cross border investments by developing a common accreditation system and BA European passport ( eg through mutual recognition of fiscal incentives among angel investors in the Member States).
- 2) promote new co-investment schemes with Business Angels and business angels syndicates at European and national levels, based on existing good practices in Europe or the rest of the world.
- 3) Supporting better qualification of business angels by building capacity of Business Angels, BAs syndicates and networks.

## 4 - Promoting market access for SMEs
