September 2026

THE EU DIGITAL PRODUCT PASSPORT - WEBINAR 3

Welcome & Housekeeping

Rules for participants

Microphone are muted by default:

- Participants should remain muted unless invited to speak.

Asking Questions:

- There will be two opportunities to ask questions, not all questions may be answered live due to time constraints; unanswered questions will be addressed later.
- Participants are invited to raise their hand; the moderator will give the floor in order of request (priority-based).
- Questions can also be submitted via the Slido Q&A chat and may be addressed at the end of the session.

Message Guidelines:

- Keep messages concise and relevant.
- Use the chat only for technical issues (audio, access, connection).
- Use the Q&A for content-related questions.

Permissions:

- Participants can view the session and use the chat and Q&A features.

Recording Notice:

- The session will be recorded. By joining, participants agree to the recording and to the use of their image and voice for documentation purposes.

Slido Q&As – 3 ways to access it

Scan or click and keep the window open:

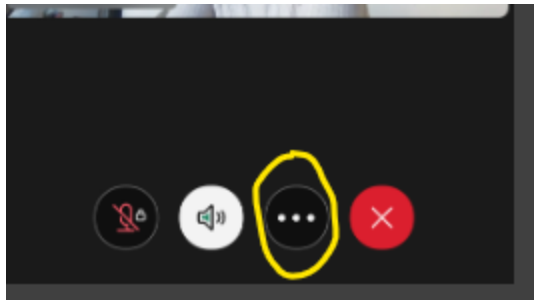
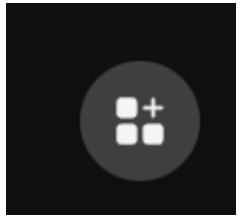
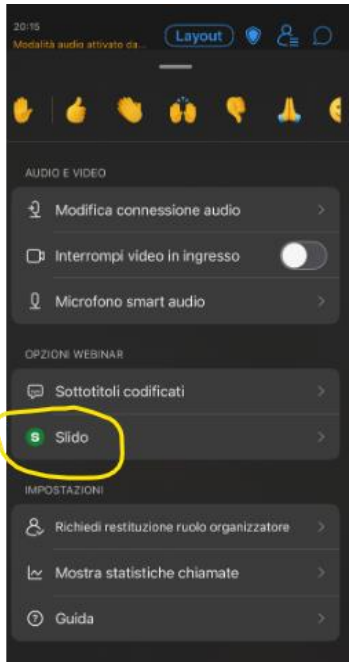
Through Webex, click on the three dots or in the app button (depends on the device you use):







Agenda

13:30 - 13:40 **Opening**

Stefka DZHUMALIEVA, Head of Unit, Single Market Implementation Tools

13:40 - 14:20 **Digital Product Passport: Recent developments and batteries passport data points guidance**

Ewout DEURWAARDER, Policy Officer Sustainable Products, Alexandru ION, Digital Product Passport Team Leader

14:20 - 14:30 **BREAK**

14:30 - 14:50 **DPP Registry verification process: Live Demonstration**

Matti Daniel TAMIELA, Chief Architect Digital Product Passport

14.50 - 15.10 **Live Q&A**

15:10 - 15:20 **Conclusions and wrap-up**

Stefka DZHUMALIEVA, Head of Unit, Single Market Implementation Tools

1. INTRODUCTION

2. OPENING REMARKS

Stefka DZHUMALIEVA, Head of Unit,
Single Market Implementation Tools

3. DIGITAL PRODUCT PASSPORT:

Recent developments and batteries passport data points guidance

Ewout DEURWAARDER, Policy Officer Sustainable Products
Alexandru ION, Digital Product Passport Team Leader

General access to the battery passport

Standards for QR code and unique identifier are in Article 77(3)

- **To be updated to EN 18220 and 18219** through delegated act
  (in the act concerning performance and durability of industrial batteries)

- Publication of the draft **on 'have your say' yesterday** and to WTO/TBT in the coming days
- Adoption and publication in 2027
- Currently referenced standards still fine to be used ('equivalent')

Access to the passport's restricted parts

Implementing act - Article 77(9)

Concerns the information in points 2 and 4 of Annex XIII

- specifying which persons are to be considered **persons with a legitimate interest**
- to which information listed in those points they shall have access
- and to what extent they can download, share, publish and re-use that information

- Discussed in battery expert group on 29 April and Member States' committee on 16 July
- Draft implementing act to be published **on 'have your say'** and to WTO/TBT **in the coming weeks**
- Aim for vote by the committee in December / early January

Published: guidance on data points by category

Number	Data point name	Data point source	Electric vehicles (EV)	Light means of transport (LMT)	Industrial
1	Unique identifier	BR Article 77 (3)	Mandatory	Mandatory	Mandatory
2	Identity of who is registering and/or is responsible for the battery passport	BR Article 77 (3)	Mandatory	Mandatory	Mandatory
3	Manufacturer name, registered trade name or registered trademark	BR Annex VI A (1)	Mandatory	Mandatory	Mandatory
18	The carbon footprint label	BR Annex XIII 1 (c)	Not to be filled/displayed as of February 2027- format still to be specified in the upcoming implementing act	Not to be filled/displayed as of February 2027- format still to be specified in the upcoming implementing act	Not to be filled/displayed as of February 2027- format still to be specified in the upcoming implementing act
32	Reference test used for expected battery lifetime expressed in cycles	BR Annex XIII 1 (j)	Mandatory	Mandatory	only applicable for some industrial batteries where lifetime can be expressed in cycles

Latest Updates

Published in the DPP website:

- New FAQs for batteries passports can now be found here
- Latest Battery Data point by category document can be found here

Upcoming developments:

- Technical specifications for developers to implement DPP semantics and data formats for the batteries passport – *Planned for end of October*
- New version of the Battery Passport data points guidance document: *Planned for the coming weeks*
- Service account guide – *Planned for the coming weeks*
- DPP Registry API integration guidelines – *Planned for end of December*
- Updates on the company verification process:
    - Upcoming explanatory video – *Beginning of October*
    - Error treatment improvement – *Already implemented*

European Commission

BREAK

10 minutes

4. DPP REGISTRY VERIFICATION PROCESS

Live demonstration

Matti Daniel TAMIELA, Chief Architect Digital Product Passport

DPP Registry resources – DPP website

DPP Registry

You can now enrol your organisation via the link below.

Access the Registry

Testing Environment

Explore DPP features and workflows in a safe test environment, without affecting live data or real processes. To get started, create a separate EU login account for testing.

Access the testing environment

User Guide for Economic Operators

The DPP Registry User Guide provides detailed instructions and functional information for the main functionalities of the Digital Product Passport Registry system including:

- Enrolling an Organisation
- Registering and managing DPPs

User Guide for Economic Operators

Help Desk

Need help using the platform or having technical issues? Our Help Desk team is here to support you.

You can contact us via email: EC-HELPDESK-DPP@ec.europa.eu

And by phone number from 08:00 to 20:00 CET: +3222960431
