Thanks to the EU General Safety Regulation, vehicles now sold in the EU have to be equipped with a series of new safety features to assist the driver and help better protect passengers, pedestrians and cyclists across the EU.

NEW SAFETY FEATURES IN YOUR CAR

FOR ALL ROAD VEHICLES

- Intelligent speed assistance
- Reversing detection with camera or sensors
- Attention warning in case of driver drowsiness
- Emergency stop signal
- Cybersecurity measures

FOR CARS AND VANS

- Lane keeping assistance
- Advanced emergency braking detecting cars, pedestrians and bicycles
- Event data recorders

FOR BUSES AND TRUCKS

- Detection and warnings to prevent collisions with pedestrians or cyclists
- Tyre pressure monitoring systems

Measures being progressively introduced between July 2024 to January 2029

For new vehicle types from July 2024
For new vehicles from July 2026

- Advanced driver distraction warning
- Safe and longer lasting tyre performance

For all new vehicle types from January 2026
For all new vehicles from January 2029

- Safety glass

- Improved direct vision to better see cyclists and pedestrians
- Event data recorders
